

Dear Yolanda,

Your altruistic assistance has helped autistic children to regain hope and their parent can see a ray of hope again. Thank you.

Your successful example has built up confidence of the parents. Though the future is difficult, you have lit up the light before us so that we are able to walk step by step. I wish the training of “the Louis Program” can help more autistic children to have a prosperous life.

Wish that we can do all things through Him who strengthens me
